

## Secondary Schools Attended by Far Hills Graduates

Starting in the seventh grade and continuing throughout the entire application process, the secondary school counseling office gives counsel and guidance in selecting and applying to appropriate schools. Far Hills students are highly regarded by secondary schools for their academic achievement, curiosity, enthusiasm, confidence, and preparedness. Our graduates are known to be “doers” and “leaders” in high school and are highly involved in extracurricular activities.

Over the past five years (classes of 2011-2015) approximately 50% of graduates attend private day schools, 40% attend boarding schools, and 10% attend local public schools. Listed below are the secondary schools at which our students have matriculated:
